

The GLC

Sport Utility Vehicle

Mercedes-Benz

A strong character with new facets.

The new GLC is more intelligent, dynamic and self-assured than ever. With a fascinatingly cutting-edge operating system that adapts more accurately to your needs and preferences every day. With an even more expressive SUV design. And with comfort and safety systems that attend better than ever to you and your well-being.

A close-up, low-angle shot of the driver's side interior of a Mercedes-Benz GLC. The image highlights the red leather upholstery on the seats and door panels, contrasted with the black dashboard and center console. The steering wheel, featuring the Mercedes-Benz logo and 'AIRSCREAM' branding, is visible on the right. The instrument cluster shows a speedometer and a digital display. The side mirror reflects a sunset scene over mountains.

Get in. The new GLC has plenty of surprises in store.

A whole new way of operating a car. Simple. Intuitive. By words, touch and gestures. This is MBUX – the new Mercedes-Benz User Experience. The highlights: new digital displays and touch control elements, a natural speech recognition system plus the ability to adapt itself better to you each day.

Treat your eyes to something special.

Nothing appeals to the eye more than an aura of strength and athleticism. And the new GLC with the AMG Line has a particularly sporty charisma. With its broader shoulders, integrated tailpipe trims and new wheel designs, it conveys an even greater sense of power and dominance. And the flattened tail lights feature LEDs as standard for the first time.

Top up your energy levels.

Everything here in the interior has just one aim: to make the time you spend here as enjoyable as possible. With ENERGIZING packages to enhance your sense of wellbeing as and when you need them. With new optional sports seats for tangibly more lateral support and comfort. And with a Burmester® surround sound system that can turn your music into a superb audio experience.

Only the new GLC handles like this.

Adaptive suspension systems, all-wheel drive, and electrified engines. All of this is possible for the new GLC. Among the absolute highlights available are the optional AIR BODY CONTROL air suspension system for exceptional driving stability, the practical 4MATIC all-wheel-drive system and the new electrified petrol engines with EQ Boost.

Energising comfort and exemplary safety.

During rush hour, on long drives at night, or on unfamiliar routes – your new GLC noticeably takes the strain out of driving, particularly in stressful situations. It's all down to a concept that makes every journey in a Mercedes-Benz a safer and exceptional experience: Mercedes-Benz Intelligent Drive. Because the time you spend behind the wheel is your time. Time for relaxation. Time to replenish your energy. So that, first and foremost, you reach your destination safely, but are also relaxed when you get there.

Driving Assistance package. Hit the road to autonomous driving: cutting-edge systems support you based on the situation with speed adjustment, steering, lane changes and even when there is a risk of collision. The risk of an accident is reduced – passengers and road users are protected effectively. This way you are able to reach your destination relaxed and safe.

The innovative **PRE-SAFE® Sound** system generates a sound signal through the loudspeakers that can trigger a protective reflex: your auditory system briefly disconnects, thereby protecting itself from the loud noise of a crash.

Equipment with 360° camera and Driving Assistance systems. On board. Active Parking Assist with 360° camera makes it easier for you to find a parking space and to manoeuvre into and out of parking spaces. Here the choice is yours: park with ease yourself thanks to all-round visibility – or make things even easier still by getting the car to park for you.

Mercedes-Benz User Experience.

You can now control and adjust almost everything intuitively using just one finger in the new GLC. Simply by using the large touchscreen, the new touchpad or the Touch Control buttons on the new steering wheel. One touch is all it takes to adjust the display style, the ambient lighting or the infotainment precisely to your wishes.

EQUIPMENT HIGHLIGHTS – CONTROL AND DISPLAY CONVENIENCE

To enable you to find your way in complex traffic situations, **MBUX Augmented Reality Navigation** merges the virtual and the real world. The technology incorporates graphical navigation instructions and traffic information into live images. You can get to your destination quickly, safely and stress-free.

MBUX voice control. The MBUX (Mercedes-Benz User Experience) infotainment system with intuitive voice control is optionally available for the new GLC. It understands what you say and obeys your commands using natural speech recognition. Two words are all it takes: “Hey Mercedes”. And the new GLC is all ears.

Intuitive touch-control concept.

The sophisticated MBUX touch-control concept lets you determine exactly what it shows you and how you control it. As intuitively as on a smartphone. Either by hand gestures on the new touchpad, using the Touch Control buttons on the new steering wheel, or on the touchscreen. The choice is yours.

Fully digital instrument cluster.

The fully digital instrument display with the display styles “Classic”, “Progressive” and “Sporty” lets you decide which information is important to you and in which way you wish to have it displayed. The 31.2 cm (12.3-inch) display delivers a pin-sharp image which is easy to read in all light conditions.

Burmester® surround sound system.

The optionally available Burmester® surround sound system turns your new GLC into a unique acoustic experience. The system is based on a wealth of perfectly orchestrated components that have been fine-tuned to the vehicle interior: 13 high-performance speakers, Frontbass technology, and a 9-channel DSP amplifier with a total output of 590 watts. For outstanding sonic quality with high sound-level reserves.

Sports seats.

The new AMG Line sports seats offer you appreciably more lateral support and comfort, particularly when driving at high speed. Visual highlights include the fine two-tone upholstery in cranberry red and black ARTICO man-made leather as well as the unique and exciting AMG design.

Standard equipment and appointments.

Even the standard specification gives you a stylish exterior all round. This includes exclusive design features in chrome and attractive light-alloy wheels. The visible, chrome-plated tailpipe trim elements emphasise the dynamic look of the vehicle.

The EXCLUSIVE interior.

The EXCLUSIVE interior allows you to show what matters to you: the utmost in elegance and top-class quality down to the most minute detail. The luxurious highlights and refined ambience of your interior, including exclusively styled seats and a dashboard with a high-quality trim, will bring you pleasure every day.

The AMG Line.

The expressive bodystyling of the AMG Line lends the exterior a sporty, exclusive touch. So you can make a clear statement for powerful design. The technical features additionally enhance your driving pleasure, as the sports suspension tuned for agility and coupled with the Sports Direct-Steer system allows emphatically dynamic handling.

The Night package.

The Night package adds attractive touches: many of the exterior features are finished in black. They underscore the sporty character and special individuality of your vehicle. And they demonstrate your sense of expressive design and exclusive sportiness.

Adaptive suspension systems.

The new GLC not only adapts to the road surface, it also responds to your needs: the AGILITY CONTROL suspension, configured for outstanding ride comfort, comes as standard. Also available: 4MATIC all-wheel drive and the exceptionally sporty DYNAMIC BODY CONTROL suspension with steel springs and adjustable damping. One of the absolute highlights: the AIR BODY CONTROL air suspension for exceptional driving stability coupled with outstanding comfort and agility.

4MATIC all-wheel drive.

When moving off or accelerating, during dynamic cornering or in light off-road terrain: 4MATIC, the enhanced permanent all-wheel-drive system from Mercedes-Benz, ensures superb off-road performance and optimum traction as standard with many of the engine variants in the new GLC. The all-wheel-drive system is constantly active and does not require any time to react and intervene. In this way it ensures unique directional and driving stability, especially on slippery surfaces due to rain, ice or snow.

Not an SUV. An AMG.

Every Mercedes-AMG is a masterpiece in its own right, with an unmistakable character. What unites our performance vehicles and sports cars is their irrepressible sporting spirit. Their passion for top performance. It is generated at the point where engineering skill meets a very special attitude: the spirit of AMG. We believe that you have to keep on challenging limits in order to achieve new goals. We accept nothing as a given. Because limits are imposed by people, and it's also people who can overcome them. It's this attitude that enables us to achieve outstanding performance for the race track – and for the road.

Welcome to the world of AMG.

The best for the engine:
Mercedes-Benz genuine engine oils.

¹ Information about the rated output according to Regulation (EC) No. 715/2007 in the currently valid version. ² Available temporarily. ³ Electronically governed. ⁴ The stated figures were determined according to the prescribed measurement method. They constitute the "NEDC CO₂ figures" pursuant to Article 2 No. 1 Implementing Regulation (EU) 2017/1153. Fuel consumption figures have been calculated on this basis. More information about the official fuel consumption and the official specific CO₂ emissions of new passenger cars is available in the publication entitled "Leitfaden über den Kraftstoffverbrauch, die CO₂-Emissionen und den Stromverbrauch neuer Personenkraftwagen" ["Guidelines concerning the fuel consumption, CO₂ emissions and electricity consumption of new passenger cars"], available free of charge at all retailers and from Deutsche Automobil Treuhand GmbH (www.dat.de). The figures are not based on an individual vehicle and do not constitute part of the product offer; they are provided solely for purposes of comparison between different vehicle models. The figures will vary according to the optional equipment selected. ⁵ Information only valid within the European Union. May vary from country to country. ⁶ Determined on the basis of the measured CO₂ emissions, taking into consideration the vehicle mass. Only valid for Germany. ^{*}Weighted electrical consumption (kWh/100 km)/Electric range (km): XXXXXXXXX. Further technical data may be found at

Dimensions.

All figures in millimetres. The illustrated dimensions are mean values. They are valid for vehicles in basic specification and in unladen condition.

SPORT — F O R — GOOD

Mercedes-Benz AG is one of the founding partners of the worldwide “Laureus Sport for Good Foundation”, which was established in 2000. It is the Mercedes-Benz brand's most important social initiative. Laureus Sport for Good supports children and young people in need through social sports projects, opening up new perspectives and imparting important values such as team spirit, respect and determination. “Change the Game for Kids” is our mission statement which we wish to share with you.

Please note: Changes may have been made to the product since the editorial deadline on 01.10.2019. The manufacturer reserves the right to make changes to the design, form, colour and the product specification during the delivery period, provided these changes, while taking into account the interests of the seller, can be deemed reasonable with respect to the buyer. Where the seller or the manufacturer uses symbols or numbers to describe an order or the

subject of an order, no rights may be derived solely from these. The illustrations may show accessories and items of optional equipment which are not part of standard specification. For the definitive latest information, please contact your nearest authorised Mercedes-Benz AG dealer.
