

S-Class Saloon

Mercedes-Benz

What can we offer a well-travelled achiever for the road? How can we surprise someone with an instinct for what is around the next corner? How do we lend a guiding hand to someone how is accustomed to leading the way? In a duly attentive, respectful and appreciative manner. Accommodating their each and every wish to an unprecedented degree. Revel in a car that's always quick to slow things down.

Feel Intelligent Drive.

Experience the new S-Class in glorious HD. With the Mercedes-Benz brochure app for the iPad® and with the Digital Owner's Manual from "Mercedes-Benz Guides" for the iPhone®. Both apps feature a host of films and additional content and are available free of charge from the iTunes Store®.

Fascination.

The illustrations may show accessories and optional extras which are not part of the standard specification.

¹ The driver remains responsible for controlling the vehicle at all times.
The self-parking function (Remote Parking Assist) may not be approved in all countries.

Enjoys plenty of attention.
And returns it in kind.

Not having to prove anything to anyone. And yet doing it every day.

For example, that resources need to be handled prudently. That the height of refinement is still some way down the road. That economy and luxury are not mutually exclusive, but go together perfectly. As if to prove this, the new S-Class now features a new engine generation. With the most intelligent assistance systems in its class. Designed to thrill body and mind.

Always quick to slows things down.

There are so many technologies that make our life faster. In the new S-Class one piece of equipment is premièring that can stop your world for a moment: optionally available ENERGIZING comfort control stands for the intelligent combination and activation of colours, sounds, lights, scents and even seat massages. Subtle vitalising or relaxing effects help to keep the driver fit and composed behind the wheel.

What's the secret behind such composure?

Do you sometimes find yourself asking this question? No other luxury saloon so confidently treads the path between style and status. Finely drawn lines and striking details lend the new S-Class an even stronger presence, without it ever being intrusive. Does this style ring any bells with you?

Personality with aplomb.

Design is also about things that you don't see. When every operating action becomes a sensual experience. When elements appear to hover in space. When suddenly everything works so effortlessly and intuitively. This is the true value of the digital age. This is the true luxury of the new S-Class.

Show who you are. Not what you have.

Character and prestige are literally written all over the face of the new S-Class. The optional MULTIBEAM LED headlamps make a particularly striking impression. A total of 84 LEDs turn illuminating the road into a fine art. An exclusive light design lends the S-Class a distinct appearance in the dark, too.

The image shows the rear passenger area of a Mercedes-Benz S-Class. The focus is on a leather seat with a quilted pattern. A small 'V12' badge is visible on the seat's backrest. The interior is finished with dark wood trim and a light-colored leather headrest. The window shows a blurred view of a building.

A seat of excellence for high achievers who know just where they want to go.

You'll be more relaxed and focused when you alight than you were when you boarded the vehicle. This is the unique standard of comfort embodied by the S-Class. Multicontour seats with numerous adjustment options fit you to perfection and pamper you on your journey. Six massage programmes, heated armrests and your own cooled compartment – everything revolves around you.

Still the most precious of all attributes: charisma.

There are people who can imbue an entire room with their charisma. And there are saloons whose poise and assurance set a leading example for an entire class of vehicle.

Our world in your hands.

www.mercedes.me – it's all about you. Discover a world of fascinating services, products and innovations that will simplify and enrich your life. Coming straight to you in digital form. And turning our world into your world.

Life can be so fascinating when you're fully connected.

All our connectivity and mobility services plus a host of other fascinating features – all in one place and exclusively for you. That's Mercedes me. Register free of charge today and make the world of Mercedes-Benz your very own at your convenience – on your PC or laptop or in mobile mode via tablet, smartphone or smartwatch. And because your life is forever changing, our services are also continually evolving. Join us now at: www.mercedes.me/welcome

Looking for individual inspiration in real life, too? The Mercedes me Stores are a fascinating phenomenon worldwide – in Beijing, Moscow and Hamburg, for example.

Mercedes me connect connects you with your vehicle – and your vehicle with the whole world. A comprehensive range of convenient connectivity services relating to all areas of your vehicle supports you, ensuring greater safety, closer contact and an even more fascinating driving experience. It's reassuring to stay connected all the time while you're on the move. Mercedes me connect includes Standard Services, which are able to provide you with automatic support in the event of a breakdown or an accident, as well as Remote Online Services – the option enabling vehicle settings to be carried out by smartphone – and lots more besides.

Mercedes me inspire offers special brand experiences and an opportunity to engage in an inspiring dialogue. We aim to share our ideas with you and we would like to know your ideas and wishes. So that we can always offer you the best solutions. A community is available to this end, and you will also find a growing range of offerings and experiences which go beyond the traditional vehicle-related topics – from areas such as events, travel and lifestyle.

Mercedes me move offers access to intelligent mobility solutions: car2go is the pioneer and global market leader in free-floating car sharing, the moovel mobility app pools the offerings from various mobility providers to find the ideal route from A to B. With the mytaxi app you can order a taxi, track its approach live and pay for your journey in a convenient manner. Mercedes-Benz Rent offers vehicles to suit all occasions for short- or long-term rental from an authorised Mercedes-Benz dealer near you. Blacklane enables you to book a chauffeur-driven limousine, FlixBus offers inexpensive, comfortable and environment-friendly trips on long-distance coaches.

Mercedes me assist makes easy work of organising maintenance for your vehicle, providing a convenient online means of locating a Mercedes-Benz dealer in your neighbourhood and arranging a service appointment. The digital service report keeps you up to date on performed service work. The report can be made available to you online just one day after a service. In addition to the current service report, you can also view your vehicle's complete service history and service intervals, and you can print this information out if you so wish.

Mercedes me finance offers you various routes to your vehicle of choice. Mercedes-Benz Bank/Mercedes-Benz Financial Services finds the ideal leasing, financing and insurance solution together with you – tailored to your needs. Our leasing products enable you to drive the latest models at all times while enjoying maximum flexibility, as you pay not for acquisition of the vehicle, but only for its use. You also benefit from attractive monthly instalments. Our financing arrangements enable you to pay for your new Mercedes-Benz in a way that suits your personal budget. You can tailor your monthly instalments to your needs by deciding on an appropriate down-payment and term for your contract. Our individual insurance solutions offer reliable protection for your budget and your vehicle on attractive terms. Your existing financial contracts can be managed conveniently online.¹

¹ Depending on market availability.

Our service: the perfect fit for your Mercedes.

Beyond the car itself, you also acquire something priceless – an exclusive partnership with Mercedes-Benz. For you, this means safety, independence and motoring free of any worries. In other words: the reassuring feeling of driving a Mercedes.

The best for your Mercedes. No-one knows your Mercedes better than our experienced specialists at the Mercedes-Benz workshops. The comprehensive range of services and the high standard of quality ensure that your vehicle is in top condition. We use proven Mercedes-Benz GenuineParts and special tools to this end.

The best for you. Motoring free of any worries right from the word go: with the tailor-made Mercedes-Benz Service Contracts. These offer you the benefits of a reliable basis for long-term planning, permanent control over costs, fixed monthly rates and cost transparency. Plus ideal protection from additional workshop costs.

The best for your mobility. The Mercedes-Benz Mobilo¹ mobility solution provides for motoring free of any worries throughout Europe – covering breakdowns, accidents, minor mishaps and vandalism. The benefits offered by Mobilo include on-the-spot assistance, a replacement vehicle, towing and overnight hotel accommodation, for example. Mobilo comes free of charge for the first two years after initial registration and can subsequently be renewed each time the vehicle is serviced by an authorised service partner, for a period of up to 30 years in all. Whenever you need assistance, you can reach us free of charge throughout Europe on 00800 1 777 7777².

↘ FIND OUT MORE

For the full information on Mercedes-Benz Service Contracts, go to www.mercedes-benz.com – or ask your authorised Mercedes-Benz dealer to draw up an individual offer for you.

¹ Our general terms and conditions apply. The period of validity is extended after each service carried out by an authorised Mercedes-Benz service partner until the due date for the next service – up to a maximum of 30 years after initial registration. ² Roaming charges may apply when calling from abroad.

What would motorsport be without Mercedes-Benz?

The first vehicle to ever win an automobile race was powered by a Daimler engine. The first Mercedes was a racing car. The Silver Arrows – a true legend. Mercedes-Benz has a long tradition of involvement with the world of sport. Motorsport shapes the brand and every vehicle bearing the Mercedes star to this day. Discover the brand's unique history first-hand: at the Mercedes-Benz Museum in Stuttgart.

↘ FIND OUT MORE

Discover just what has been moving the world for over 130 years and take a journey through time as well as through the history of the automobile at the Mercedes-Benz Museum. More than 1500 exhibits await you on 16,500 m² of floorspace, including unique gems such as the oldest surviving Mercedes from 1902 or the legendary gull-wing models. Welcome to a place of innovation:

What would Mercedes-Benz be without motorsport?

3 June 1934 marked the beginning of the Silver Arrows legend in the International Eifel Race at the Nürburgring. Today this legend is more alive than ever: in 2016 the Silver Arrows works team Mercedes-AMG Petronas Motorsport won the Formula 1 constructors' and drivers' titles for the third year in a row, making history by winning 19 of the 21 Grand Prix races. In a spectacular finale in the desert city of Abu Dhabi, Nico Rosberg secured his first world championship title in his Mercedes-Benz F1 W07 Hybrid. The value of these successes extends way beyond the race track: every mile raced advances development in fields such as lightweight materials and hybrid technology for series production.

How are you?

An important question, as your well-being is a key safety factor. That's why the new S-Class actively attends to its passengers' physical and mental well-being. Since 1972, every S-Class has stood for outstanding comfort, but today we are talking about an entirely new quality.

The first car to recharge your batteries.

A colour, a sound, a light or a fragrance – minor stimuli can be enough to change your mood. These and other sources of stimulation are intelligently combined and activated at the push of a button in the S-Class. They serve to vitalise or relax you according to your wishes, thereby enhancing your performance behind the wheel. We call this ENERGIZING comfort control – for a marked boost in driving safety.

Innovations that have everything covered.

The optional Driving Assistance package offers the driver a comprehensive scope of support, with Active Steering Assist including Active Lane Change Assist¹ and Active Brake Assist. Route-based speed adaptation¹ adjusts the vehicle's speed ahead of bends, roundabouts, junctions, toll booths and turning-off manoeuvres when Active Distance Assist DISTRONIC is active. And Active Speed Limit Assist lowers the vehicle's speed in accordance with recognised traffic signs. To make sure you feel safe and secure.

¹ Only available for certain countries.

Mercedes-Benz Intelligent Drive – pointing the way to accident-free and autonomous driving.

Mercedes-Benz is the first automotive manufacturer worldwide to have developed an integral safety concept, with the aim of safe driving, responding in an appropriate manner to hazards, avoiding accidents and mitigating the consequences of accidents. For the occupants of a Mercedes and for all other road users, too.

Mercedes-Benz Intelligent Drive forms part of this integral safety concept. It makes your Mercedes one of the most intelligent automobiles in the world – an “intelligent partner”. The Mercedes-Benz Intelligent Drive assistance systems are able to recognise hazards, provide timely warnings and even intervene autonomously when necessary – by performing braking manoeuvres, for example. In this way, accidents can be prevented or the severity of accidents can be significantly reduced. In order to protect passengers as necessary in case of dangers, additional protective features such as PRE-SAFE® are activated as anticipatory measures. These features vary according to the model concerned.

Many Mercedes-Benz vehicles already offer the option of a Driving Assistance package. The key functions of this package include partially automated driving on motorways, on country roads and in built-up areas. The Driving Assistance package also lends support when changing lane on multi-lane roads, for example during overtaking. This relieves the driver’s workload, as in normal driving they no longer need to brake or accelerate. The driver also receives substantial support with steering – even in bends.

Never before have safety, comfort and measures to reduce the strain on the driver been combined so effectively. This intelligent and pioneering interplay of sensors and safety and assistance systems represents a milestone on the road to autonomous and accident-free driving. And a fascinating new experience into the bargain.

Only an S-Class looks this far ahead.

Optional **MULTIBEAM LED** enables extremely fast and precise adjustment of the headlamps to the given traffic situation. The light can always be switched on precisely where it is required via 84 individually controllable LEDs. A total of four control units calculate the ideal light pattern 100 times per second using information from a camera behind the windscreen.

If no other road user is detected, the road is straight and the vehicle speed is over 40 km/h, the additional **ULTRA RANGE Highbeam** goes on automatically. The maximum legally permitted light intensity is produced, which means that the brightness of the main beam falls short of the reference value of one lux only at a distance of more than 650 metres. When the system detects motorway conditions, an optimised high beam pattern is selected accordingly. Motorway high beam reduces the risk of dazzling oncoming trucks and focuses the driver's attention on their own lane. In combination with COMAND Online, the cornering light with roundabout function already activates the cornering light function prior to entering a roundabout.

More than a nice gesture: When locking and unlocking the vehicle, the locator lighting greets and takes its leave of the driver with an exceptional light display featuring changing colours.

The rear end design boldly demonstrates the power and dynamism that the new S-Class embodies. New **crystal-look rear lamps** have the appearance of jewels, while three horizontally running fibre optic elements serve as a defining design feature. So-called multi-level functionality for the brake light additionally optimises driving safety for road users following the vehicle as well.

The rear lamps show a characteristic design by day and night. The advantages of their LED technology include better visibility, a considerably longer operating life and lower power consumption than conventional bulbs. The light intensity of the turn signal indicators and brake lights varies according to the prevailing light conditions and the vehicle's speed.

MORE LIGHT, BETTER VISIBILITY

The standard-specification **LED High Performance headlamps** provide for enhanced safety at night and a distinctive, striking look. LED technology illuminates the road ahead better than conventional headlamps – and it consumes less energy.

Adaptive Highbeam Assist Plus as a feature of MULTIBEAM LED allows main beam to be left on at all times without dazzling other road users. As a result the best possible headlamp range is always available to the driver. The function is active from a speed of 30 km/h on unlit roads.

Top performance figures from 5.1 l/100 km to 1000 Nm.

The comprehensive S-Class portfolio spans the full spectrum of present-day high-end engine construction. Six, eight or twelve cylinders. Petrol or diesel. Such variety is unmatched in the luxury segment.

A new highlight is the electrified **6-cylinder in-line petrol engine** in two output ratings. An integrated starter alternator between engine and transmission (EQ Boost) enables virtually silent engine starting. The combustion engine is also switched off during coasting in the ECO drive program. Additional torque and a boost function for lively response provide for additionally enhanced driving dynamics.

An even more fuel-efficient new development is the **6-cylinder in-line diesel drive** delivering up to 700 Nm of torque. A cutting-edge nitrogen oxide aftertreatment system cleans the exhaust gases more effectively than ever.

The new **top-of-the-range V8 engine** is derived directly from the high-performance unit on board the Mercedes-AMG GT. With this engine, the S-Class offers performance on a par with that of a super sports car. This pairs up with hallmark S-Class smooth running to produce a unique and fascinating combination. An integrated cylinder shutoff system additionally provides for astounding fuel efficiency: in the low rev range, four of the eight cylinders are imperceptibly shut off.

The **V12** has always represented the pinnacle of engine construction. This earns it a place of honour in the new S-Class – as a specially equipped S 600 and as the Mercedes-Maybach S 650. Find out more on pages 54 and 76 to 83.

THE ENGINE RANGE

Petrol

S 450 with an output of 270 kW + 16 kW EQ Boost (367 hp + 22 hp) and peak torque of 500 Nm

S 450 4MATIC with an output of 270 kW + 16 kW EQ-Boost (367 hp + 22 hp) and peak torque of 500 Nm

S 500 with an output of 320 kW + 16 kW EQ-Boost (435 hp + 22 hp) and peak torque of 520 Nm

C 560 with an output of 345 kW (469 hp) and peak torque of 700 Nm

C 560 4MATIC with an output of 345 kW (469 hp) and peak torque of 700 Nm

S 600 with an output of 390 kW (530 hp) and peak torque of 830 Nm

Mercedes-Maybach S 560 with an output of 345 kW (469 hp) and peak torque of 700 Nm

Mercedes-Maybach S 560 4MATIC with an output of 345 kW (469 hp) and peak torque of 700 Nm

Mercedes-Maybach S 650 with an output of 463 kW (630 hp) and peak torque of 1000 Nm

Mercedes-AMG S 63 4MATIC+ with an output of 450 kW (612 hp) and peak torque of 900 Nm

Mercedes-AMG S 65 with an output of 463 kW (630 hp) and peak torque of 1000 Nm

Diesel

S 350 d with an output of 210 kW (286 hp) and peak torque of 600 Nm

S 350 d 4MATIC with an output of 210 kW (286 hp) and peak torque of 600 Nm

S 400 d with an output of 250 kW (340 hp) and peak torque of 700 Nm

S 400 d 4MATIC with an output of 250 kW (340 hp) and peak torque of 700 Nm

Curbing lateral forces with innovative features.

The **MAGIC BODY CONTROL suspension with curve inclination function** – standard for the S 600 and Mercedes-Maybach S 650, optionally available for the S 560 and the Mercedes-Maybach S 560 – prepares for bumps ahead before the vehicle passes over them. To do this, MAGIC BODY CONTROL combines active suspension with continuously adjustable dampers and ROAD SURFACE SCAN. The latter feature employs a stereo camera to adapt the damping in good time to the carriageway ahead and to increase or reduce the load on the wheels via the active hydraulics. The curve inclination function enables the body of the vehicle to lean inwards by up to 2.65 degrees on bends. This significantly reduces the perceived lateral forces while increasing subjective driving pleasure, especially on country roads.

The continuously adjustable dampers allow both a comfortable basic damping action and a stiffer, speed-dependent setup. Depending on the driving program, it is also possible to select comfortable or taut and sporty

springing characteristics according to personal preferences. The active suspension effectively compensates body roll and pitching when moving off, in bends or during braking, while hydraulic self-levelling all-round allows the level of the vehicle to be controlled independently of the load on board. The vehicle can be raised by 40 mm for increased ground clearance. At high speeds, the suspension level is automatically lowered by up to 15 mm, thereby helping to reduce aerodynamic drag and improve driving stability.

STANDARD-FIT SUSPENSION SYSTEMS

In combination with infinitely variable damper control, the **AIRMATIC** air suspension system ensures a very high standard of both ride comfort and handling. The damping at each wheel is adapted to the current driving situation, and can be set for more comfortable or sporty characteristics as required.

The **Direct-Steer system** supplements the comfort of speed-sensitive power steering system with a variable ratio dependent on the steering wheel angle. On winding roads, for example, this produces a more agile handling response and improved straight-line stability.

At a push of the **DYNAMIC SELECT** button, drivers can choose between comfortable, sporty and efficient driving characteristics, or individually defined characteristics. Parameters such as engine, transmission, steering or ESP® characteristics are adjusted according to the selected drive program.

Follow a guiding hand for once: COMAND Online.

Navigation, telephone, audio, video, internet – with the **COMAND Online** control and display system the driver is able to keep tabs on these and many other functions. Information is shown in colour on a 31.2 cm high-resolution media display. Fast hard-disc navigation with realistic topographical map display for relaxed route guidance. In combination with a suitable mobile phone it is possible to call up internet pages when the vehicle is stationary and to use Mercedes-Benz apps such as POI search, weather or internet radio while driving. Other highlights of COMAND Online include the Bluetooth® interface with hands-free function and telephony via wideband speech, a read/write function for text messages and emails and music transmission via audio-streaming.

In addition to the COMAND Controller and the LINGUATRONIC voice control system, the COMAND Online functions can be controlled intuitively with the innovative **touch-pad** by means of single- or multi-finger (multitouch) gestures.

A **Head-up Display** can optionally project the most important information for the driver into the latter's field of vision, where it appears to hover over the bonnet around two metres in front of the steering wheel.

The “S” also stands for “smart technology”.

With optional **Remote Parking Assist**¹ (see illustration below) you can get out of the vehicle and guide it into parking spaces by smartphone. It is operated by an app. The vehicle can manoeuvred out of a narrow parking space or garage in the same convenient way.

The **Connectivity Comfort package** provides the technical basis for use of the location, tracking and remote services for three years. Geofencing, Vehicle Tracker, Remote Door Locking and Unlocking, Remote Retrieval of Vehicle Status or Programming of Auxiliary Heating – a selection of the Remote Online services that can currently be booked separately with Daimler AG on the basis of this technical set-up.

The **Mercedes me connect Concierge Service**² is an exclusive assistance and information service for Mercedes-Benz customers. It provides personal support by telephone when searching for interesting locations (POI), restaurants or hotels. Recommended destinations are transferred to COMAND Online upon request. The Concierge Service can be used in the vehicle and via an app on smartphones.

¹ The driver remains responsible for controlling the vehicle at all times. The self-parking function (Remote Parking Assist) may not be approved in all countries. ² After activating the Mercedes me connect services, the Concierge Service is available free of charge for one year, after which continued use is possible subject to a charge.

All aglow with ambient lighting.

Futuristic displays in HD resolution, select materials, a spacious feel – the optional **ambient lighting with 64 colours** showcases this exceptional atmosphere in the new S-Class during night-time driving, too. For example, the indirect LED light complements the elegant lines of the trim and goes one step further: the light showcases the interior like a work of art by composing different colours to form colour schemes. This creates emotionally appealing contrasts and structures the interior in three levels. The colour scheme can be briefly replaced by special effects – for instance a Coming Home function welcomes the driver. In this way, the ambient lighting uses the positive influences of light on well-being during the journey. As such, this feature represents a key element of the ENERGIZING comfort control option.

THE PERFECT COMPLEMENT: AMBIENT FRAGRANCING

The interior can be fragranced to suit individual tastes with the optional **AIR BALANCE** package. There is a choice of six high-quality interior fragrances according to personal preferences. In addition, the air quality can be improved by ionisation and optimised filtering of the incoming and recirculating air. The two interior air filters have an anti-allergenic function. The especially allergy-friendly product comes with an ECARF seal of quality.

Listen up: Burmester® high-end sound.

28 amplifier channels with a total system output of 1590 watts and technologies developed exclusively for the vehicle optionally provide for unprecedented listening enjoyment. The combination of analogue and digital components results in an extraordinarily expressive and fascinating 3D sound – the Burmester® “feel-good sound”. With the 3D surround sound system, passengers are able to experience and enjoy a 3D reproduction of mono, stereo and 5.1 music signals in the vehicle. This is achieved with the aid of special algorithms and three speakers integrated in the roof lining. The VIP setting makes it possible to adjust the sound individually for the driver, front passenger and passengers on the left and right in the rear. To suit personal tastes, individual sound settings can be carried out with the five sound presets “Pure”, “Easy Listening”, “Live”, “Surround” and “3D Surround”.

HIGHLIGHTS AT A GLANCE

The 28-channel amplifier with a total system output of 1590 watts boasts an extraordinarily clear and finely nuanced sound.

Frontbass technology with woofers integrated into the bodyshell boasts powerful bass reproduction.

Active analogue filters provide multi-faceted, natural and spatial mid-range and high-range sound reproduction for that special Burmester® “feel-good sound”.

Rear seat comfort.

The optional **electrically adjustable rear seats** offer tailor-made travel comfort. The backrests of the two outer luxury seats can be reclined to an angle of up to 37 degrees. This standard of seat comfort in the outer rear seats can be further enhanced with the optionally available **Rear Seat Comfort package** featuring multicontour seats with inflatable air chambers for even more individual adjustment. The ENERGIZING massage function enhances the sense of well-being – if desired also using heat. Finally, the extended-length business console of the **First Class rear suite** transforms the rear into a mobile office with two individual seats. Two 12 V sockets and temperature-controlled cup holders, as well as optional features such as folding tables, make for a comfortable travelling and working environment.

HIGHLIGHTS AT A GLANCE

77 mm more kneeroom comes courtesy of the optional **Chauffeur package** – the front passenger seat can be moved significantly further forward and the EASY ADJUST luxury head restraint on the front passenger side removed for an unobstructed view.

A special S-Class feeling is also provided by the optional **Warmth Comfort package**, which includes heated armrests and a heated centre armrest. The optionally available refrigerated compartment in the rear also conveys a special touch of luxury – the cooling setting can be reduced or increased at the press of a button.

Rear Seat Entertainment System.

Films on Blu-ray or DVD, TV, internet, video games, music – the optional Individual Entertainment System gives passengers in the rear their very own personal entertainment programme. In combination with high-quality wireless headsets (optional), two 25.9 cm (10.2-inch) displays on the front seat backrests ensure brilliant picture and sound quality. The system is conveniently operated using a remote control. It includes a Blu-ray player, is networked with COMAND Online and also has ports for connecting external devices. The passengers are each able to access the entertainment source of their choice. Via connections in the rear armrest, content from MP3 players, games consoles, USB sticks, iPod® or iPad® is also available.

HIGHLIGHTS AT A GLANCE

Simply put your device down to charge it – the **wireless charging system** in the rear requires no plug connectors. Mobile devices that support the Qi standard can be charged on the charging surface in the armrest.

The Bluetooth® handset belonging to **Business Telephony in the rear** is integrated in the rear armrest, where it is clearly visible and readily accessible. It is also charged automatically here. The system offers a dedicated hands-free zone in the rear.

The standard equipment.

The S-Class conjures up a uniquely secure feeling as soon as you open the door. It is all down to the vehicle's poise and assurance, even in confusing traffic situations. The relaxed feeling on alighting at the end of a long journey. This feeling is priceless, incomparable – and comes as standard in every S-Class.

EXTERIOR HIGHLIGHTS

- Electrically folding exterior mirrors
- Windscreen wipers with rain sensor
- LED High Performance headlamps
- AIRMATIC with continuously variable damping system
- Two-pipe exhaust system with visible tailpipe trims

INTERIOR HIGHLIGHTS

- Seats upholstered in leather with contrasting topstitching
- Widescreen Cockpit with 31.2 cm (12.3-inch) instrument display and 31.2 cm (12.3-inch) media display under a continuous glass cover
- Touchpad with Controller
- THERMOTRONIC automatic climate control
- Ambient lighting featuring eight colours
- COMAND Online
- KEYLESS-GO starting function

The AMG Line.

This equipment line combines perfectly coordinated features to further enhance the vehicle's sporty and exclusive character – from dynamic AMG bodystyling with sporty AMG light-alloy wheels and perforated brake disks to the multifunction sports steering wheel.

PURE AMG

Discover the fascinating world of AMG beginning on page 56.

EXTERIOR HIGHLIGHTS

AMG bodystyling, comprising AMG-specific front and rear aprons as well as side sill panels with inserts painted in vehicle colour

AMG 5-twin-spoke light-alloy wheels, painted titanium grey and featuring a high-sheen finish, with 245/45 R 19 front tyres and 275/40 R 19 rear tyres (793)

Optional: AMG 10-spoke light-alloy wheels, painted titanium grey and featuring a high-sheen finish, with 245/40 R 20 front tyres and 275/35 R 20 rear tyres (RRM)

Optional: AMG multi-spoke light-alloy wheels, painted titanium grey and featuring a high-sheen finish, with 245/40 R 20 front tyres and 275/35 R 20 rear tyres (769)

Perforated brake disks, brake callipers with "Mercedes-Benz" lettering

INTERIOR HIGHLIGHTS

High-gloss black poplar wood trim

AMG sports pedals in brushed stainless steel with rubber studs

AMG velour floor mats

AMG Line Plus.

Building on the contents of the AMG Line, dynamism and exclusivity are taken to even higher levels with a range of selected equipment and appointments. These include AMG multi-spoke light-alloy wheels, painted in high-gloss black, AMG sports seats and an AMG Performance steering wheel.

HIGHLIGHTS AT A GLANCE

AMG multi-spoke light-alloy wheels, painted high-gloss black and featuring a high-sheen finish, with 245/40 R 20 front tyres and 275/35 R 20 rear tyres (789)

Optional: AMG 10-spoke light-alloy wheels, painted high-gloss black, with 245/40 R 20 front tyres and 275/35 R 20 rear tyres (RRN)

AMG 3-spoke Performance steering wheel in nappa leather, with flattened bottom section, steering wheel trim in silver chrome with "AMG" lettering and silver-coloured aluminium shift paddles, 12 o'clock marking and Touch Control buttons

AMG sports seats with AMG-specific V8 seat upholstery layout

Exclusive package – the pleasure of excellence.

The stylishly coordinated combination of high-quality appointments meets the highest expectations with regard to comfort, quality and design. Generous use of exclusive nappa leather and large-area trim enhance the exclusivity of the interior. The effect is heightened by other fine details, such as illuminated door sill panels with “Mercedes-Benz” lettering, stainless-steel boot sill as well as roof liner and sun visors covered with fine DINAMICA microfibre.

HIGHLIGHTS AT A GLANCE

Seat covers in exclusive nappa leather with contrasting topstitching

Seat upholstery layout with diamond pattern design

Front and rear centre armrests in nappa leather with contrasting topstitching

Upper section of dashboard and door centre panels in nappa leather with contrasting topstitching

Grab handles in nappa leather with contrasting topstitching

Roof liner and sun visors in DINAMICA microfibre

Exclusive Trim package (additional trim in the door centre panels, in the covers of the rear air vents and on the backs of the front seat backrests)

Illuminated door sill panels with “Mercedes-Benz” lettering

Stainless-steel boot sill

Map pockets on the backrests of the driver and front passenger seats in nappa leather

Velour floor mats

Highlights – optional equipment.

The luxury of driving an S-Class begins with your personal configuration. So many possibilities, so many innovations – the selection on this page represents only a fraction of the available options. Take your time to choose your ideal options – the added comfort, security and individuality make every difficult decision worthwhile.

HIGHLIGHTS AT A GLANCE

- 1 With its extensive glazed surfaces the optional **panoramic sliding sunroof** ensures a particularly light and pleasant interior ambience. It consists of a fixed panoramic glass rear section and an electrically operated sliding glass front section for ventilation of the interior as required.
- 2 The **Memory package** is especially convenient when the vehicle is used by more than one person. Up to three different positions for the electrically adjustable front seats, steering column and exterior mirrors can be stored at the touch of a button and retrieved.
- 3 The **KEYLESS-GO package** enables the vehicle to be conveniently opened, started and locked – simply by having the electronic key on your person. The **HANDS-FREE ACCESS** function allows contactless, fully automatic opening and closing of the boot.
- 4 The **MAGIC VISION CONTROL** adaptive windscreen wiper system maintains optimum visibility while the wipers are in action. The washer fluid is sprayed directly in front of the wiper blades and wiped away without delay. The heating system effectively lowers the risk of icing-up.

Highlights – genuine accessories.

Practical and robust. Sporty and striking: the new S-Class can be all this as well. With genuine accessories. Each item is tailored perfectly to the vehicle's design and produced in accordance with the high Mercedes-Benz standards. Discover the full range online now at www.mercedes-benz-accessories.com.

HIGHLIGHTS AT A GLANCE

1 Door handle recesses, high-gloss chrome finish.

High-gloss door recesses in chrome design, protect against scratches in the door handle recess and offer high-quality, individual look.

2 10-twin-spoke light-alloy wheels.

Painted palladium silver and featuring a high-shine finish, with 245/40 R 20 XL tyres (A222 401 2702 7X19). Optionally available for the rear axle with 275/35 R 20 XL tyres (A222 401 2802 7X19).

3 Discreet rear spoiler fitted on the boot lid, accentuates the air flow break-away edge at the rear without being obtrusive. A high-quality base coat makes the paint finish in the desired colour possible. Excellent durability thanks to precision-mounted, resilient polyurethane. Easy to fit, no additional drilling required. No entry in vehicle documents required.

4 10-spoke light-alloy wheels.

Painted matt himalayas grey, with 245/40 R 20 XL tyres (A217 401 0000 7X68). Optionally available for the rear axle with 275/35 R 20 XL tyres (A217 401 0100 7X68).

5 5-spoke light-alloy wheels.

Painted tremolite grey and featuring a high-shine finish, with 245/45 R 19 XL tyres (A222 401 2502 7X44). Optionally available for the rear axle with 275/40 R 19 XL tyres (A222 401 2602 7X44).

V12 – a masterpiece of refined motoring.

A V12 engine rated at 390 kW (530 hp) assures the S 600 of superlative power delivery. Exclusive design features such as 48.3 cm (19-inch) multi-spoke light-alloy wheels, a radiator grille with striking horizontal chrome bars and signature tailpipe trims add an exquisite finish touch to the vehicle's appearance. Inside, the V12 start-up screen and V12 emblems on the seats allude to the top-of-the-range engine on board.

In keeping with the engine technology, the standard equipment also leaves nothing to be desired. The standard scope includes MAGIC BODY CONTROL suspension, the Driving Assistance package and MULTIBEAM LED headlamps, for example. Available solely as a long-wheelbase version, the S 600 is ideal for relaxing and enjoying the ride in the rear. The Chauffeur package and the Exclusive package cater to your every need here.

Mercedes-Benz S 600 Guard special protection vehicle. Makes you untouchable.

For eight decades we have been working closely together with internationally recognised authorities to ensure that the Mercedes-Benz Guard models are even better equipped to offer their occupants the best possible level of protection. As early as the bodyshell stage, protective components made of special steel are integrated into the cavities. Underbody armouring is also integrated. Special aramide and PE components provide additional splinter protection. Intelligently designed overlapping systems at particularly critical points such as joints and transitional areas provide comprehensive ballistic protection. With its sophisticated and strong protective system, the S 600 Guard has immediately met all the personal protection requirements of the relevant authorities in Germany, and

is the first vehicle to have been certified for highest ballistic protection in resistance class VR9. As the S 600 Guard is hardly recognisable as an armoured saloon, it meets a further important requirement for special protection vehicles: maximum discretion through unobtrusiveness. Thanks to the intelligently integrated armouring, the Guard version retains the first-class ambience of the S-Class Saloon for its occupants. In addition, as the only car in this segment, the S 600 Guard is available both as a 4-seater and as a fully-fledged 5-seater, and offers unrestricted day-to-day suitability by virtue of a 350-litre boot capacity and high payload.

A manifestation of effortless superiority. The new Mercedes-AMG S-Class.

Mercedes-AMG is not just a producer of performance vehicles. AMG is a commitment. A commitment to always go that extra mile. To expect a lot and to give everything. That's how we create exceptional motor cars for exceptional people, producing something totally new in the process. Vehicles which combine high-performance technology that has cut its teeth in the world of racing with uncompromising lightweight design to conjure up a virtually perfect combination of luxury saloon and sports car: the new Mercedes-AMG S 63 4MATIC+ and the new Mercedes-AMG S 65.

Never before have we pushed our aspirations so emphatically to the limit. To extract the maximum from every moment, every mile of the way.

Welcome to the world of AMG.

S 63

Business is all about performance. And efficiency.

Catapult-like acceleration accompanied by the mighty bass of the new, selectable AMG performance exhaust system with twin exhaust tips: a luxury vehicle could hardly be more emotional. And you are in the hot seat at the controls. In the new Mercedes-AMG S 63 4MATIC+, which, with its AMG 4.0-litre V8 biturbo engine generating an output of 450 kW (612 hp) and 900 Nm of torque, accelerates from 0 to 100 km/h in just 3.5 seconds. The AMG SPEEDSHIFT MCT 9-speed sports transmission combines perfectly with the V8 biturbo engine. It boasts extremely fast and smooth gear-shifting. It also raises both dynamics and efficiency to an entirely new level, with combined fuel consumption reduced to 8.9 litres per 100 km. Great performance and a great sense of responsibility.

Thrills up front.

We aimed to create more than just an automobile. It has become a symbol of modern luxury: the Mercedes-AMG S 63 4MATIC+. The signature AMG front with large air inlets on the jet wing and the characteristic grille adorned with the AMG logo are a delight to behold. And the thrill of this car can be boosted still further by selecting one of four driving programs with the AMG DYNAMIC SELECT switch in the centre console to influence the vehicle's characteristics – from comfortable through sporty to particularly sporty – or just as you wish in the Individual program.

Always nicely under control.

Futuristic operating and display elements as well as select, perfectly processed materials. Every move in the interior of the Mercedes-AMG S 63 4MATIC+ becomes a luxury experience. Beginning with the AMG performance steering wheel, right up to the AMG sports seats with specific upholstery, the contours of which ensure excellent lateral

support. The optional 50.8 cm 20-inch AMG forged wheels in a cross-spoke design are an expression of sportiness. Give free rein to this sporty character and your emotions. The large brake disks of the AMG high-performance composite braking system ensure that you stay in control of proceedings at all times – even in extreme driving conditions.

Call it understatement. Call it intelligently well grounded.

We are driven by an aspiration to keep surpassing ourselves. And this ambition is manifested in the totally new, innovative AMG Performance 4MATIC+ all-wheel-drive system. An electro-mechanically governed clutch variably connects the continuously driven rear axle to the front axle. This means that the optimum torque distribution is calculated continuously, providing the Mercedes-AMG S 63 4MATIC+ with stepless variability from traction-oriented all-wheel drive to full rear-wheel drive. This provides for extremely powerful acceleration manoeuvres, enhanced driving stability and driving safety – on dry roads, in wet conditions or in snow. The AMG sports suspension based on AIRMATIC also ensures optimum roadholding. So who's to stop you?

Exclusive looks. And a sound to match.

Power comes naturally to you. Draw attention to the fact with the signature AMG V12 sound of the AMG sports exhaust system. The Mercedes-AMG S 65 sounds particularly powerful during acceleration and double declutching. At constant speeds, the high-performer adopts a more restrained tone. However you wish to make your mark, you certainly won't go unnoticed.

When the substance lives up to the initial promise.

Power, dynamism and exclusivity are what set the Mercedes-AMG S 65 apart. “V12 biturbo” lettering on the wings, “S 65 AMG” model plate on the boot lid as well as large multi-spoke 50.8 cm (20-inch) AMG forged wheels in ceramic high-gloss polished finish support this impression, which is seamlessly continued in the interior. Excellent side support is provided by the AMG sports seats with strong contouring

and higher seat side bolsters. Finest nappa leather with contrasting topstitching and piping, seat upholstery layout in the AMG-specific diamond design and specifically positioned perforation underline the high-quality look and feel. Welcome to your 7th heaven.

The formula for success: just keep pushing up against the limits.

The new Mercedes-AMG S 65 takes the luxury class to giddy heights. It's all down to an AMG 6.0-litre V12 biturbo engine, which ensures intense driving experiences. The vital statistics alone speak volumes. The engine outputs 463 kW (630 hp) of power, peak torque stands at 1000 Nm. The Mercedes-AMG S 65 accelerates from a standing start to 100 km/h in just 4.2 seconds and attains a governed top speed of 250 km/h (an optional governed top speed as high as 300 km/h is also possible). The AMG sports suspension based

on MAGIC BODY CONTROL applies the unique dynamics safely to the road. You determine how the vehicle feels – at the push of a button with AMG DYNAMIC SELECT. The characteristics of the engine, transmission, suspension and steering alter within a matter of seconds. In addition to the “Comfort”, “Sport”, “Sport+” and “Individual” drive programs, the Mercedes-AMG S 65 exclusively features the “Curve” drive program – for the ultimate in driving enjoyment particularly on winding stretches of road.

It takes a special inner strength to stay on top.

All set for top performance: The AMG 4.0-litre V8 biturbo of the Mercedes-AMG S 63 4MATIC+ is closely related to the engine on board the Mercedes-AMG GT R super sports car. Generating an output of 450 kW (612 hp) and 850 Nm of torque, it sets benchmarks in terms of power and torque. The engine features the tried-and-tested twin turbochargers which are mounted inside the V configuration, rather than on the outside of the cylinder banks – experts refer to this as a “hot inside V”. This basic principle enables a compact engine design and more spontaneous response for the turbochargers. Thanks among other things to its cylinder shut-off system, this is recognised as one of the most efficient series-produced V8 engines in the world.

Prime mover: the AMG 6.0-litre twin-turbo V12 engine. Hand-built according to the “one man – one engine” principle just like the V8 biturbo engine, this powerhouse has an output of 463 kW (630 hp) and peak torque of 1000 Nm. These figures place the Mercedes-AMG S 65 among the front runners in its segment. The strengths of the V12 biturbo engine further include effortless acceleration throughout all speed ranges and smooth running with the striking hallmark AMG V12 sound. In a nutshell: supreme performance with style.

Sharing a special passion: the AMG Private Lounge is our Community centred around the world of AMG. This is where AMG customers come together at top-class events and on the online platform to exchange views about the latest developments from Affalterbach. They benefit from special offers and a direct link to AMG headquarters:

At the AMG Performance Studio we create cars that are perfectly tailored to your wishes and desires. No limits are placed on our experts’ creativity, who demonstrate their unparalleled craftsmanship and attention to detail in areas as varied as special technical components, extravagant paintwork finishes and the most exclusive interior appointments imaginable, to produce one-off masterpieces.

Enter the world of AMG. Experience true driving performance.

**We don't just build cars.
We make dreams come true.**

That special aura. Outside and in. The new Mercedes-Maybach S-Class.

The imposing radiator grille serves as a figurehead announcing the strong presence of the Mercedes-Maybach S-Class. The legendary name shines resplendently in the grille. The elegant side view with chrome highlights on the B-pillar and the chrome-trimmed bumpers emphasize the distinct character of the Mercedes-Maybach S-Class. The triangular side windows are a typical example of the loving attention to detail. The wheels are exquisite gems. Three wheel designs have been evolved exclusively for the new Mercedes-Maybach S-Class. The Maybach forged wheels with 10-hole trim, for example.

Special hallmarks
of exquisite class.

Mercedes-Maybach

The image shows the rear passenger area of a Mercedes-Maybach S-Class. Two individual seats are visible, upholstered in a light-colored, quilted leather with a diamond pattern. A central console with a dark wood or leather finish is positioned between the seats. The seats have large, adjustable headrests. A small Maybach logo is visible on the seat cushion. The overall atmosphere is one of luxury and comfort.

Quietly confident. The interior of the Mercedes-Maybach S-Class.

Travelling in the new Mercedes-Maybach S-Class surpasses all expectations. The feeling of space is indescribable. No other saloon in the world offers such a quiet environment in the rear. And the Chauffeur package provides for plenty of rear legroom. Enjoy the comfort of luxurious, ergonomically perfect individual seats with leg rests. If you wish to attend to business, the extended-length business console included in the optional First Class rear suite can be transformed at wish into a desk. When your work is done, the seats can be moved into a comfortable reclining position at the push of a button.

A grand vision transported into the here and now.

The Mercedes-Maybach S 600 Pullman is more than the continuation of a great and unique history. It marks the rejuvenation of a prestigious saloon of historic dimensions. With an overall length of 6.50 metres, the Mercedes-Maybach S 600 Pullman leaves all contenders in its wake, combining supreme exclusivity and individuality with the ultimate in space and comfort.

¹ Figures for rated output and rated torque in accordance with Directive (EC) No. 595/2009 in the currently applicable version. ² Electronically governed. ³ AMG Driver's Package (optional). ⁴ The figures stated for fuel consumption and CO₂ emissions were determined in accordance with the specified measuring process (§ 2 nos. 5, 6, 6a of German energy labelling ordinance for cars (Pkw-EnVKV) as amended). The figures are not based on an individual vehicle and do not constitute part of the product offer; they are provided solely for purposes of comparison between different vehicle models. The figures vary according to the given wheels/tyres. ⁵ Classification applies within European Union only and may vary from country to country. ⁶ Determined on the basis of the measured CO₂ emissions, taking into account the mass of the vehicle. Applicable for Germany only.

Mercedes-Benz is one of the founding partners of the “Laureus Sport for Good Foundation”.

Since the foundation was established in 2000, Mercedes-Benz has been supporting and promoting the aims and values of this worldwide non-profit-making programme: to use social sports projects to improve the lives of children and young people who are disadvantaged or suffering from illness. Laureus has become a fundamental element of Mercedes-Benz’s social responsibility. Every new Mercedes is an ambassador embodying these values. In buying a Mercedes you are supporting the “Laureus Sport for Good Foundation”.

Please note: changes may have been made to the product since this brochure went to press (08.06.2017). The manufacturer reserves the right to make changes to the design, form, colour or specification during the delivery period, provided these changes, while taking into account the interests of the vendor, can be deemed reasonable with respect to the purchaser. Where the vendor or the manufacturer uses symbols or numbers to describe an order or the subject of an order, no rights may be derived solely from these. The illustrations may include accessories and optional extras which do not form part of the standard specification. Colours may differ slightly from those shown, owing to the limitations of the printing process. This brochure is distributed internationally. It provides a general indication of the range of models, features, optional extras and/or colours available in various countries. Some of the models, features, optional extras and/or colours shown may not be available in your country or may only be available in a different specification. Additionally some models, features, optional extras and/or colours may only be available in combination with others. For current and more specific information in relation to the range of models, features, optional extras, colours and/or services available in your country, and their pricing, please contact your nearest authorised Mercedes-Benz Passenger Car Dealer.

Take-back of end-of-life vehicles. At the end of its long life, you can return your S-Class to us for environment-friendly disposal in accordance with the European Union (EU) End-Of-Life Vehicle Directive. But that day lies a long way off.

A network of vehicle take-back depots and dismantlers is available to make returning your vehicle as easy as possible for you. You are welcome to return your vehicle to one of these establishments free of charge. In so doing, you will be making a valuable contribution towards closing the recycling cycle and preserving resources.

For further information about the recycling and disposal of end-of-life vehicles and take-back conditions, please visit your national Mercedes-Benz website.
